SECTION A: READING

(5 Marks)

1. Read the following passage and answer the questions given below:

Teasing has unfortunately become a part of growing up – almost every child experiences it. But it isn't always as innocuous as it seems. Words can cause pain. Teasing becomes bullying when it is repetitive or when there is a conscious intent to hurt another child. It can be verbal bullying (making threats, name-calling), psychological bullying (excluding children, spreading rumors) or physical bullying (hitting, pushing, taking a child's possessions).

Bullying behavior is prevalent throughout the world and cuts across socio-economic, racial/ethnic and cultural lines. It can begin as early as pre-school and intensify during transitional stages, such as starting school in first grade or going into middle school.

Victims of bullying are often shy and tend to be physically weaker than their peers. They may have low self-esteem and poor social skills, which makes it hard for them to stand up for themselves and retaliate. The physical and emotional suffering so caused may last into adulthood and interfere with personal and professional lives.
