Australia is an island. It is surrounded by the sea. However, as it is large in size, it is called a continent. It has long sandy beaches, grassy farmland and high mountains. It also has vast deserts and forests. Australia is famous for sheep rearing. There are millions of sheep all over the country. These sheep are bred for their meat and wool. There are also many large farms in Australia.

Kangaroos live in Australia too. These animals are native to Australia. The mother kangaroo carries her young one in her pouch. Kangaroos can run very fast because they have powerful hind limbs. Like kangaroos, koalas can also be found in Australia. These animals are very quiet and they live in gum trees. They seldom climb down from the trees. Koala babies cling on to their mother's bodies. They also ride on their mother's back.
