

**INDIAN SCHOOL SOHAR**  
**TERM –I EXAM (2022 – 23)**  
**SUBJECT: MATHEMATICS**  
**CLASS- V**  
**SET –B**

**Date of Exam: 25-09-2022**

**Time Allotted: 2 hours**

**Max. Marks: 40**

**(Note: This question paper consists of 3 printed pages. Please check that you have all the pages.)**

-----

**Section A**

**I. Choose the correct option:**

**(1 × 10 = 10)**

1. What is the sum of the place values of the two 5s in the number 856570?  
a) 50050                      b) 50500                      c) 50000                      d) 5050
2. What is the difference of the largest 6-digit and smallest 6-digit number?  
a) 100000                      b) 999998                      c) 899999                      d) 999999
3. Find the value of  $500 \times 421 \times 2$ .  
a) 4210                      b) 42100                      c) 421000                      d) 4210000
4. Find the missing number:  $318 \times (520 \times 900) = (318 \times \underline{\hspace{2cm}}) \times 900$   
a) 318                      b) 520                      c) 900                      d) 500
5. If  $54 \div 9 = 6$ , then 9 and 6 are \_\_\_ of 54.  
a) factors                      b) multiples                      c) prime                      d) dividend
6. Sam distributed 800 sweets equally among 80 children. How many sweets did each child get?  
a) 1000                      b) 100                      c) 10                      d) 1
7. The numeric expression of 9 more than the product of 11 and 5.  
a)  $11 \times 5 + 9$                       b)  $11 + 9 \times 5$                       c)  $9 + 11 \div 5$                       d)  $5 \times 9 + 11$
8. Insert the appropriate symbol:  $12 + 9 \bigcirc 3 = 15$ .  
a) +                      b) -                      c)  $\times$                       d)  $\div$
9. Which of the following is a prime number?  
a) 72                      b) 86                      c) 53                      d) 27
10. Two prime numbers whose difference is 2.  
a) co-prime                      b) even primes                      c) twin primes                      d) odd primes

**II. Match the following:****(1 × 5 = 5)**

Column A	Column B
1. Round off 53,421 to nearest 100s	a) 72
2. Find: $324 \times 4 \times 250$	b) 30
3. The remainder of $463451 \div 1000$	c) 53,400
4. Solve: $12 \times 3 - 42 \div 7$	d) 451
5. Find the 8 <sup>th</sup> multiple of 9	e) 3,24,000

**Section B****III. Do as directed:****(2 × 6=12)**

- Solve:  $4395272 + 3895204 - 730282$ .
- Multiply: 7345 by 295.

**OR**Use the shortcut method to find the product of  $6464 \times 101$ .

- What will be the quotient and the remainder if you divide the greatest 7-digit number by the smallest 5-digit number?

**OR**

The product of two numbers is 5490. If one of them is 45, find the other number.

- Find the quotient and the remainder of  $3285 \div 27$ .
- What number is 9 less than the sum of the difference and the product of 6 and 5?

**OR**Solve:  $8 + 54 \div 6 \times 3 - 10$ 

- List all the prime numbers between 20 and 40.

**Section C****IV. Do as directed:****(3 × 3=9)**

- a) Insert commas and write the number names of 145890467 in both Indian and International place value system. **(2marks)**

Indian System	International system

- Make the smallest and greatest 8-digit numbers using the digits 2, 6, 3, 9, 0, 7, 8, 5 without repeating any digit. **(1 mark)**
  - Find the product of  $6217 \times 5021$  **(2marks)**
  - Regroup the factors to find the product of  $50 \times 6789 \times 20$  . **(1 mark)**

3. a) A factory manufactures 2905 pairs of shoes every week. What is the daily output of the factory ? (2marks)
- b) 100 bags of rice cost ₹ 75,000. What is the cost of 1 bag of rice? (1 mark)

**OR**

Complete the table by drawing a 😊 if the number is divisible by the given number.

S.NO	Number	2	3	4	5	6	9	10
i)	6248							
ii)	7610							
iii)	7329							

### Section D

**V. Answer the following questions based on the information given below: (1 × 4 = 4)**

Total number of lunches served in a school cafeteria from Monday to Friday (for 5 days) are 15,000.

Data of lunch served by the school cafeteria on weekdays are as follows:

Days	Monday	Tuesday	Wednesday	Thursday	Friday
<b>Number of lunches served</b>	3450	2430	3380	3420	?

- How many total lunches did the cafeteria serve on Monday, Tuesday, Wednesday and Thursday?
- How many lunches did the cafeteria serve on Friday?
- On which day was the more number of lunches served?
- If one lunch costs ₹ 70, find the cost of 15,000 lunches.
