SECTION A-READING (4 Marks)

I. Read the following passage carefully and answer the questions that follow:

In today's time, machines are playing very important roles in human lives. They are ten times faster than human capacity. With the help of machines, the production of goods is done very fast and cheaply. Of course, the machines are bought by rich people but they don't run them. Instead, poor people are employed to run them. Actually, poor people can't afford such expensive machines, so they only work there under compulsion. There are many other examples of machines such as wind turbines, engines, motors, etc. Wind turbines are used to generate electricity using wind power. With the help of motors and engines, people make many other electric machines and devices.

Choose the correct option:

1. Which machine is used to generate electricity? 2
