SECTION A: READING (20 marks)

1. Read the passage given below.

(10)

- 1. Birds are natural wonders of beauty. The entire universe is their home. Flight assists birds with feeding, breeding, avoiding predators, and migrating. Their mellifluous calls, queenly dance, gossamer quill and artistic sculpture make them special. India has quite a few forest reserves which are home to some rarely seen and endangered species of birds.
- 2. Located about 24km from the Chennai City Centre, Namnangalam is a massive forest sprawling across 2400 hectares, of which 320 are reserved. It is a bird watcher's paradise, and houses about 85 species of birds including the Red-Wattled Lapwing, the White Breasted Kingfisher, the Indian Eagle Owl and several others except the Flycatcher. It is also said to be the home to rare territorial orchids.
- 3. Amarambalam Reserve Forest is one of the largest reserve forests in Kerala. Situated in the Western Ghats, this forest reserve in India sees a variety of birds. It is also home to the Lion Tailed Macaque and the Nilgiri Tahr. The forest continues from the Silent Valley National Park and forms a part of the Nilgiri Biosphere Reserve.
- 4. Kumarakom bird sanctuary also known as Vembanad bird sanctuary is situated in Kerala, near the famous Vembanad Lake. It offers a home to a large number of migratory birds like Flycatchers, Teals, Siberian Storks, Cranes, Parrots and Wood Beetles. Other bird sanctuaries in Kerala are Mangalavanam and Thattekkad bird sanctuaries, situated on the banks of the Periyar River and famous for some of the rarest species of birds and other unique fauna.

(10)

- 1. 'Health is Wealth'- so runs the proverb which says people having sound health enjoy their life physically as well as mentally. Healthy food and balanced diet is one of the most important factors which provide us with good health.
- 2. Our food should contain various components like carbohydrates, proteins, fats, vitamins and minerals. These components of food are called nutrients. All living organisms need food to survive. Plants prepare their own food. Human beings consume foods that are nutrient-rich such as, fruits and vegetables, meats, fish, whole grain, diary, nuts and seeds. Nutrition is the mode of taking food by an organism and its utilization by the body.
- 3. The most important meal of the day is 'healthy breakfast'. Eating breakfast is important for all ages. It is observed that students who eat breakfast are more likely to have better concentration, problem-solving skills, and eye-hand coordination. They may also be more alert and creative. Hence, healthy breakfast leads to healthy mind and healthy body.
